

Design - Assist

The Praezis Advantage

Recognized for attention to detail and speed of service, ATH-Praezis balances innovative, responsive solutions with a pragmatic, cost-conscious approach. This client-centred philosophy earns ATH-Praezis customer trust and lasting business relationships.

ATH-Praezis works with its customers on any size of project - small or large, urgent or planned - meeting client's current and future needs.

Each assignment is led by one of ATH-Praezis hands-on principals and embraced by a carefully selected project team of seasoned professionals. Service 'Building Blocks' already available with ATH-Praezis may be configured, utilized, or completely new solutions structured.

These core teams, carefully selected and resourced, collaborate with customers' staff in order to completely satisfy customers' objectives. Services are provided from a choice of several 'verticals'.

ATH-Praezis is an excellent Design-Assist partner. Experienced design engineers, designers, and draftsmen are ready at hand to provide customers with the necessary 'punch' in undertaking their design, engineering, drafting work.

The team is prepared, on a 'call-out' to step forward and plug-in any resource constraints faced by the customer, in an emergency, or for any part of the project. The customer is saved the cost and hassle of carrying a full-capacity design & drafting resource during the ups-and-downs of contracting work.

The staff includes professionals with international experience and exposure in various engineering disciplines, viz. architectural, civil & structural, electrical & protection, instrumentation & controls, piping & plumbing, mechanical, HVAC, HS&E, and process. ATH-Praezis team can serve the customer needs whether it be single-discipline support is needed, or a combination-of-disciplines, on projects of any complexity.

For rehabilitation, retrofit projects, customer does not need to handle the hassle of 'hand-drawn' or 'hard-copy' documentation. ATH-Praezis will ensure accurate, error-free conversion on which to provide editable design output.

ATH-Praezis' fast-acting teams will work directly for the customer to help accomplish these tasks. Typically, ATH-Praezis' help give effect to, for example, (i) preparation of drawings, specifications, data-sheets, procedures-instructions, (ii) material take-offs, bill of quantities, (vi) detailed-engineering cost estimates, (vii) compilation, and more.

ATH-Praezis customer-oriented, service-manger can also engage with the customer to 'tailor' and custom-build a service, to help deal with a variety of challenges.
