

Environmental - Conscience

The Praezis Advantage

Recognized for attention to detail and speed of service, ATH-Praezis balances innovative, responsive solutions with a pragmatic, cost-conscious approach. This client-centred philosophy earns ATH-Praezis customer trust and lasting business relationships.

ATH-Praezis works with its customers on any size of project - small or large, urgent or planned - meeting client's current and future needs.

Each assignment is led by one of ATH-Praezis hands-on principals and embraced by a carefully selected project team of seasoned professionals. Service 'Building Blocks' already available with ATH-Praezis may be configured, utilized, or completely new solutions structured.

These core teams, carefully selected and resourced, collaborate with customers' staff in order to completely satisfy customers' objectives. Services are provided from a choice of several 'verticals'.

ATH-Praezis' shares with its customers a strong Environment Conscience. As responsible corporate citizens, ATH-Praezis shares this sensibility towards the environment making it a business priority. A keen focus on preserving resources, having lightest possible environmental foot-print, and preserving resources for future generations demonstrates this.

ATH-Praezis experts facilitate customers, through economically-priced, 'tailor-made' interventions, to meet to exceed their commitment to continuous environmental performance improvement, through good practices, and deliver against their long-term sustainability goals.

To achieve their environmental sustainability goals, customers consistently and demonstrably work on continued tracking & monitoring of environmental performance; regular evaluations; business practices improvement for effectiveness; proactive search for resources conservation opportunities; source-reduction plans; reuse & recycling programs; sustainability-conscious selection of value-chain partners; avoidance of unnecessary impacts to the natural environment; energy efficiency creation; continually challenge GHG emissions; integrate sustainability objectives throughout enterprise operations; creating awareness amongst all stakeholders; systematic communication of enterprise's environmental policies & goals with stakeholders; promotion of operational transparency; implementing formalized system of reporting; maximizing sustainable infrastructure for own operations. Customers thus want to have full compliance with applicable statutory requirements; zero violation notices, and no sanctions for non-compliance.

ATH-Praezis helps with appropriate expertise and facilitation to assist enterprises manage and benefit from carbon footprint reduction, implementing and following World Resource Institute (WRI) requirements for inventory, and equivalent carbon dioxide (CO₂e) as the quantification metric; Also, to develop and implement the Sustainable Development Goals (SDG) to meet the international requirements, and generally help achieve international benchmark standards for OHS & Environment.

ATH-Praezis stands with its customers to help with implementation of a dependable, functional Environmental Program. It assists in integration of environmentally-conscious work practices into routine-work; provision of environmental training; promotion of environmental awareness; gathering of information; 'capturing of 'lessons-learned'; auditing, energy audits; data analysis; reporting and 'feedback' into Environmental Plans. Also, assistance can be provided for reporting to third parties and stakeholders.

In particular capture and analyses of 'near misses', 'dangerous incidents', 'hazard recognition' etc. enables the enterprise to take better decisions, mitigate hazards, and solve issues. Ultimately enterprises are able to predict situations and pre-empt accidents.
