

Planning - Effectiveness

The Praezis Advantage

Recognized for attention to detail and speed of service, ATH-Praezis balances innovative, responsive solutions with a pragmatic, cost-conscious approach. This client-centred philosophy earns ATH-Praezis customer trust and lasting business relationships.

ATH-Praezis works with its customers on any size of project - small or large, urgent or planned - meeting client's current and future needs.

Each assignment is led by one of ATH-Praezis hands-on principals and embraced by a carefully selected project team of seasoned professionals. Service 'Building Blocks' already available with ATH-Praezis may be configured, utilized, or completely new solutions structured.

These core teams, carefully selected and resourced, collaborate with customers' staff in order to completely satisfy customers' objectives. Services are provided from a choice of several 'verticals'.

ATH-Praezis is convinced that best planning is only done by those who actually execute a project. However, Project Leads need to concentrate on delivery much more than on nitty-gritty of planning, so that every new project its 'best-project-yet'!

ATH-Praezis ensures assistance in effective planning and monitoring of work, taking care of the details, enabling Project Leads have timely, up-to-date, actionable information. Working as its planning-arm, ATH Praezis saves the customer planning-resource costs.

Deploying experts with hands-on construction experience, ATH-Praezis is well adept at providing planning services for large, complex, or simple projects; incl. those at 'bid-stage'. Experience includes conducting effective 'kick-off' meetings / progress review meetings, activity sequencing, planning analysis of existing facilities, manpower & resource deployment plans, programming, monitoring-reporting, and retention of 'lessons-learnt' for future.

ATH-Praezis is a competent partner in deploying means and methods of harnessing the manpower, process, and technology to improve collaboration, minimize waste, and create true value for the all aspects of the project - site-clearance, design, construction, commissioning, and operations. It has a deep, practical understanding of all aspects of a project. It can work by employing recognized world-class software or through customers' own planning tools.

ATH-Praezis experts, through concise analysis of critical milestones and identification of interdependent activities, can help customer track progress across entire project, proactively identify potential problems, come up with timely solutions and improve project performance. ATH-Praezis fully comprehends the need for the customer 'right decisions' at the 'right time', hence reduce risk and mitigate unanticipated costs due to delay, unforeseen, or acceleration.

Optimized, accurate, realistic master' project schedule, sequencing of activities, and efficient deployment of craft and machine resource employing PERT-CPM methodology, helps with improved communication, effective oversight, and will enable the customers' entire team to economically meet or better commitments on schedule like 'clock-work'.

ATH-Praezis frees up customer's mind who can naturally focus attention to leverage its expertise in cost-control, process improvements, raw material efficiency, quality, safety, productivity, and execution technique. The customer can thus complete projects on time and within budget.
